

Superior to indoor/outdoor carpeting!

Marine Matting

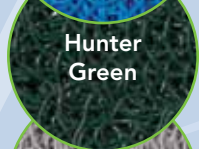

- Textured surface reduces the risk of slippage in wet areas
- Available in two thicknesses to meet your specific application:
 - *PEM® Lightweight Deck Matting:*
 - › For spas, restrooms, locker rooms, pool decks and boat decks
 - › Lighter construction for easy cleaning and handling
 - › Additional porosity makes it excellent for indoor wet areas
 - › Ideal for use as runners where daily cleaning is necessary
 - *PEM® High Traffic Matting:*
 - › For docks, patios and decks, swim platforms, life guard chairs, concession areas, outdoor pool decks, steps, bridges, walkways and underwater applications around water play equipment
 - › Thicker construction provides additional padding and durability

- **Porous Construction:**
 - *Allows moisture to flow through footing surface eliminating standing surface water*
 - *Allows evaporation beneath mat for a quick dry*
- Soft construction provides comfort for bare foot traffic
- Antimicrobial formula guards against the growth of mildew, fungi, and bacteria.
- Protects bare feet from splinters
- Reduces hot surfaces
- Eliminates the need for constant staining and painting of wood surfaces
- Lightweight for easy handling
- Will not hold or absorb water
- Cleans easily with sweeping or wash down
- Protects boat decks from fishing and scuba gear

2ft x 25ft rolls

3ft x 25ft rolls

6ft x 25ft rolls

“Woodland Marina installed your blue P.E.M. marina material on our gas dock a few years ago, it has proven to be a very durable and safe product for the area, which endures a lot of wear and weather. We are very pleased with the product and look forward to doing business with you and your company in the near future.”
